PROFESSIONAL SUMMARY

Full-stack developer who builds practical business applications — booking systems, internal dashboards, and digital commerce platforms — with Next.js, TypeScript, and PostgreSQL. Shipped an independent storefront product end-to-end, including tested payment integration and affiliate commission logic, and delivered a multi-branch booking system for a 10-location client. Comfortable owning a feature from data model to deployment.

TECHNICAL SKILLS

Frontend	Next.js App Router, React, TypeScript, Tailwind CSS
Backend & Data	Node.js, API routes, Prisma, PostgreSQL, Neon
Integrations	Midtrans payments, Resend email, Google OAuth
Deployment	Vercel, domains, environment configuration

EXPERIENCE

Freelance Web Developer — APR Presence Feb 2026 — Present · Remote, Indonesia

- Build and ship web applications for clients and independent products — requirements through deployment and handover.
- Delivered a multi-branch booking system covering customer booking, role-based staff dashboards, and branch-scoped data.
- Designed and launched a digital storefront platform with integrated and tested Midtrans payment workflows and affiliate commission attribution.

SELECTED PROJECTS

Rysee Independent Product · 2026 rysee.my.id ↗

Digital storefront platform with a shared product catalog, customizable user stores, and affiliate commissions.

Next.js · TypeScript · Prisma · PostgreSQL · Midtrans · Tailwind CSS

Multi-Branch Barbershop Booking Client Project · 2026 barbershop-kappa-ten.vercel.app ↗

Booking and operations system for a barbershop business with 10 branches — online slots, role-based dashboards, and branch-scoped data.

Next.js · TypeScript · Prisma · PostgreSQL · Tailwind CSS · Vercel

CRM & Lead Management Dashboard Independent Project · 2026 nexora.aprpresence.com ↗

Internal dashboard for capturing, qualifying, and following up sales leads — pipeline views, customer records, and exportable reports.

Next.js · TypeScript · Tailwind CSS · Recharts · Vercel

Inventory Management System Client Project · 2026 urspace.my.id ↗

Device and stock tracking for a WiFi service business — modems, cables, and equipment managed across regions serving 1000+ active clients.

Next.js · TypeScript · Prisma · PostgreSQL · Tailwind CSS · PWA · Vercel

PROFESSIONAL DEVELOPMENT

Self-taught — building production applications for real clients since February 2026.
